

**PRESS RELEASE**

September 18, 2006

**Successful API/IP 1581 5<sup>th</sup> Edition Qualification**

Colorado Springs, CO, USA –

Velcon Filters, Inc. announces the successful completion of qualification tests to the “*API/IP 1581 Specifications and Qualification Procedures for Aviation Jet Fuel Filter/Separators*” as follows:

Vessel Model # HV3256, Category M, Type S, (New Equipment) at a 1250 GPM flow rate, using 9 x I-656MMTB Coalescers and 3 x SO-648V5 Separators. This qualification will also allow Velcon to supply coalescers and separators for existing military vessels that were previously qualified to API 1581 3rd Edition Class B.

This is Velcon’s 14<sup>th</sup> successful completion of the 5<sup>th</sup> Edition qualification requirements.

Velcon Filters, Inc. has been the leader in the fuel filtration industry for over 50 years. To upgrade your existing facilities, or to install new API/IP 1581 5<sup>th</sup> Edition equipment at your location, please contact Velcon at [www.velcon.com](http://www.velcon.com) or contact your authorized Velcon distributor.
